Dear Journal editor,

Appreciate for your ;prompt response.

Just realize I submitted article with colored text that I used for my own purpose. I there any change for these request below:

1. Replace article with Black and White text version (attached)
2. Change "Cibaria" word on title with "cibaria" with full lowercase letter due to naming standard.

Thank you for assistance.

Dear Journal Manager,

I saw my second request was completely done. Thank you. But I checked my first  
request to Replace article with Black and White text version (attached) still incomplete.  
I reattached article with Black and White text version.  
Apologize if my request is not clearly communicated.

Below this my original request :

1. Replace article with Black and White text version (attached)
2. Change "Cibaria" word on title with "cibaria" with full lowercase  
letter due to naming standard.

Thanks again for fully support
